Imprisoned indefinitely, with out charge, with out trial

Imprisoned indefinitely, with out charge, with out trial

Both men on renewed hunger strikes after Israel broke its deal to release them. They are in critical condition, barely able to stand and use wheelchairs for their daily needs. Amnesty has reported that even at the Medical Centre of the Israel Prison Service they are being repeatedly beaten and abused. The latest news we just received two days ago (on 16th August) is that the prison guards have once again attacked Hassan and Samer smashing Hassans head on the iron doors of the cell repeatedly until he was unconscious on the floor, they then dragged both prisoners to an isolation cell without any mattresses. To protest this inhuman and degrading treatment Hassan Safadi has announced that he will no longer be drinking water.
