

Call to join Global Solidarity Action in support of Hares Boys - commencing 25th Oct 2013

Palestinian Prisoners Campaign - <http://www.inminds.com/caged>

Solidarity with 5 Palestinian children - tortured and caged by Israel for a crime that never happened

Last month in September we organised a highly successful Global Solidarity Action for the Hares Boys in which 11 organisations partnered with us to hold solidarity events in 9 cities across 6 countries including Argentina, Canada, Chile, France, Uruguay and the UK, over a period of 10 days. We aim to build on that success by holding another Global Solidarity Action for the Hares Boys starting 25th October. If you would like to be part of this event please contact us. List of new countries where activists will, inshAllah, participate this time already includes Iran, Jordan, Morocco, South Africa, and Turkey.

Last Global Solidarity Action for the Hares Boys from Argentina, Chile, Canada, France, UK and Uruguay

Background - Who are the Hares Boys?

On 14th March 2013 in what appears to have been a car accident when a speeding illegal Israeli settler car crashed in to the back of an Israeli truck which had stopped to change a flat tire, on a illegal Jews-only road in the West Bank, resulted in four people being hurt. At the behest of angry settlers, the incident was later presented as an attack by Palestinian stone throwing youth.

The truck drivers earlier testimony that he had stopped due to a flat tire was replaced with the new reason being that he had seen stones by the road, and an accident that nobody saw suddenly became a terror attack with 61 witnesses including the police!

Over the next few days over 50 masked Israeli soldiers with attack dogs stormed the local village of Hares in the early hours of the morning and in waves of violent arrests kidnapped the children of the village. In total 19 children were taken to the infamous G4S secured children's dungeon at Al Jalame and locked up in solitary confinement for up to 2 weeks in filthy windowless 1m by 2m cells with no mattress. The children were violently tortured and sexual threats were made against the female members of their families in order to coerce confessions from the boys.

With the confessions and the new "eye-witness" statements, five of the Hares boys were charged with 25 counts of attempted murder each, even though there were only four people in the car. Apparently the military court had decided that 25 stones were thrown, each with an "intent to kill". The five boys - the "Hares Boys" - Ali Shamlawi, Mohammed Kleib, Mohammed Mehdi Suleiman, Tamer Souf, and Ammar Souf are currently locked up in another G4S secured facility - Megiddo prison where G4S provides the entire central command room.

With no evidence of a crime the military court keeps on postponing the hearing dates for the children. All the October military court dates have been cancelled and new ones for November and December issued by the Israeli military to the families of the boys, meanwhile the boys remain caged now for over 6 months now. Not that evidence, or lack of it, has any bearing in an Israeli military court - a study conducted by the Israeli NGO 'No Legal Frontiers' over a 12 month period concluded that 100% of Palestinian children brought before the military court are convicted. If the five boys are convicted they will be locked up for over 25 years - five young lives ruined with no evidence of a crime let alone their guilt.

We are demanding the immediate and unconditional release of all the children and hold G4S complicit in Israel's crimes, particularly in the torture of Palestinian children.

The Global Solidarity Event - What is the purpose?

The purpose of holding the Global Solidarity Action is four fold.

1. To pressure Israel to release the 5 boys and return them to their families. Previous actions have been covered by the Israeli media so the pressure is definitely on as the articles have had to lie.. for example they have described the grassroots French support for the Hares Boys as a "European advertising campaign".

2. To show international solidarity to the families of the boys. We have good direct communications with the families. Knowing that their children haven't been abandoned, that they are not alone, that people on the other-side of the world care about their children enough to do something, gives tremendous strength to any mother.

ISRAEL'S G4S AL-JALAME SECURED CHILDRENS DUNGEON

Deep inside Israel's G4S secured Al Jalame prison, three floors below the surface, are located tiny childrens cells where Palestinian children as young as 12 years old are caged in solitary confinement, some for 65 days! Their only escape is the interrogation room where the children, shackled by hands and feet, are abused by Israeli secret police for over 6 hours at a time, until they confess usually to throwing a stone which carries a penalty of up to 20 years. * Details of Al Jalame prison are from testimonies of the children as reported by the Guardian newspaper (22/1/12) and documented by Defence for Children International and the Israeli human rights group B'Tselem.

65 Days of Solitary Confinement

"The cell is 2m long by 1m wide, its as big as a mattress without the toilet - you put down the mattress and in front is the toilet. There's no window, the air chokes you"

The delivery of food through a locked flap in the door is the only way of marking time, dividing day from night.

The light is kept on 24 hours a day, inhibiting sleep.

The walls have sharp protrusions preventing the child from leaning against them for support.

Behind a low concrete wall is a hole in the ground toilet, the stench from which has no escape in the windowless room.

Breakfast tray is dropped through a flap in the door 30cm from the floor at 4am, if the tray isn't caught the food will spill on the floor and the child will be punished if he doesn't eat it.

The room is barely wider than the thin (5cm thick), dirty mattress that covers the floor. Many of the cells don't even have a mattress.

6 Hour Interrogation Sessions

They said they would arrest my father and mother and bring them here if i didn't confess - "You are forcing us to bring them here, understand that I have the state of Israel behind me, behind you is nothing". In some cases female family members have been threatened with rape in order to coerce confessions from the children.

At some facilities children have been sexually assaulted by interrogators and threatened with sodomy with an object.

"On the ground is an iron ring, he puts the cuffs through it with your hands locked on either side. He cuffs your ankles to the chair legs.. You cannot move.. like a statue!"

WWW.INMINDS.COM

3. To educate people of Israel treatment of Palestinian child prisoners - their torture and caging. The information leaflets (available in English, French and Spanish) and annotated diagram of Israel's children dungeon at Al-Jalame (available in both English and Spanish) are for this purpose.

4. To pressure G4S, the British multinational company that secures Israel's child prisons, in to divesting completely from Israel. In the UK all our protests for the Hares Boys are outside the UK Headquarters of G4S in London and our banners and placards are specifically designed to implicate G4S in the crimes against the Hares Boys. In fact we have been protesting outside G4S HQ for well over a year now and the company has announced recently it will pull out of the Palestinian Territories sighting our protest in London along with other European actions as the reason behind it due to issues of brand image. We are demanding total divestment from Israel so their decision has no bearing on the campaign other than to intensify it and focus on prisons in Israel such as Al-Jalame where Palestinians are tortured.

His son was tortured in an Israeli G4S secured prison..

“We ask all free people to disrupt G4S & stop it from supplying the Israeli occupation with what it needs to torture our children..”

"In the name of Allah.. To all the brothers and sisters who stand in solidarity with our prisoners in Israeli jails , especially our children.. I am the father of the Jordanian child prisoner Muhammed Mehdi Suleiman..

I have to thank you for your efforts in support of our children, and let everyone all over the world hear their voices, and expose the zoionist's violations of the rights of our children, which are guaranteed by international law..

They stole from my son, Mohammed - 16 years old - his childhood and innocence, and they put him in their prisons, where they use all of the methods of humiliation and insult.. These prisons, which contains the most sophisticated systems, violate the dignity of our heroic prisoners, they interrogate them and torture them..

Their security systems and equipments are provided by 'G4S' organisation.. So G4S is a partner in all inhuman practices and violations of international laws. We ask all free people to disrupt this organisation and stop it from supplying the occupation with what it needs to torture our children.

Lastly I say to my son: "don't be afraid .. we're with you and all free people are with you" Freedom for our heroic prisoners.. Freedom for our child prisoners"

Mehdi Suleiman, father of Palestinian-Jordanian child prisoner Mohammed Mehdi Suleiman

Mohammed Mehdi Suleiman is one of 19 children who were abducted from their homes by Israeli soldiers in March 2013 and taken to the infamous G4S secured children's dungeon at Al Jalame where they were violently tortured and locked up in solitary confinement for up to 2 weeks in windowless 1m by 2m cells with no mattress. To coerce confessions from the boys, sexual threats were made against the female members of their families. After extracting confessions under torture of "stone throwing", five of the children including Mohammed Mehdi Suleiman are now facing life sentences for a crime that never happened!

How does it work?

The idea is that activists in different countries jointly hold different actions in solidarity with the Hares Boys around the same time (ideally within a few days of each other). We all use the same leaflets and placards, translated in different languages and featuring the details of all the groups participating (names and urls) to show the span of solidarity for the Hares Boys. And during the actions we would use the same tag #FreeHaresBoys for tweeting live pictures from the different protests so people following the tag would receive them as one united stream of solidarity for the Hares Boys.

I'm not an organisation, can I still join?

Yes, the focus here is breath of solidarity, not size of actions. So a mass demonstration is not required, all you need is a few friends (4-5 people is fine) to do some kind of solidarity action. At the last global event we saw people set up a simple stall in their city square with a few posters and giving out leaflets and talking to

people about the Hares Boys. Students in Canada had the creative idea of making masks of the 5 Hares Boys and getting other students to wear them for 'solidarity photos'. This time a school in South Africa is proposing to put on a display to educate their children about the Hares Boys and perhaps the children may wish to write letters to the boys which we can guarantee will reach as least the families of the boys. A group of children in Iran is going to make paintings in solidarity with the Hares Boys which will be presented to the mothers of the boys. Whatever material you require, like the masks, leaflets, posters, etc. we can supply as ready-to-print PDFs.

Ok I'm Interested What do I have to do to join?

Just contact us - reply to this email or message our FB page and let us know your plans and how we can help you with them.

25th October is not suitable for us, can we do our action on another date?

25th October is just the commencing date of the Global Solidarity Action and the day of the London protest, but other actions around the world will happen on other days and some across several days. So yes please find day that is suitable for your action, say within 10 days of the 25th, and let us know the details and how we can help you with it.

JazakAllah

The Palestinian Prisoners Campaign aims to raise awareness for the plight of Palestinian prisoners and build solidarity for their struggle and work towards their freedom. The campaign was launched by Innovative Minds (inminds.com) and the Islamic Human Rights Commission (ihrc.org) on the occasion of Al Quds Day 2012 (on 17th August 2012), since then we have held actions every fortnight in support of Palestinian prisoners, if you can spare two hours twice a month then please join the campaign by coming to the next action.

Le 14 Mars dernier, quatre personnes ont été blessées dans ce qui apparaît être un accident entre une voiture colon s'encastant à l'arrière d'un camion israélien. Le conducteur du camion a déclaré s'être arrêté sur le bord de la route à cause d'un crevaison provoquée par la présence de pierres sur la route. Cet incident, initialement sans témoins, s'est transformé en attaque terroriste corroborée par 61 témoins, y compris la police !

Les jours suivants, 50 soldats israéliens, masqués et accompagnés de chiens d'attaque, se sont rués sur le village d'Hares et ont procédé à un vague d'arrestations matinales aboutissant à l'enlèvement d'enfants du village. Au total 19 d'entre eux furent emmenés à l'infâme prison de haute sécurité pour enfants G4S à Al Jalame. Là, ils y ont été mis à l'isolement pendant 2 semaines, à même le sol, ne voyant le jour que par une minuscule fenêtre de 1m par 2m. Dans le but d'obtenir des aveux, ces enfants ont été torturés et on a menacé de sévices sexuels les membres de leur familles.

Leur confession obtenue, avec notamment le témoignage d'un nouveau "témoin oculaire", ils ont été inculpés de 25 tentatives de meurtre, alors même qu'il n'y avait que 5 personnes dans la voiture des colons ! Il apparaît ainsi que la cour militaire a statué que comme 25 pierres avaient été jetés sur la route, chacune d'entre elles comptait pour une tentative d'homicide ! Les 5 garçons, **Ali Shamlawi, Mohammed Kleib, Mohammed Mehdi Suleiman, Tamer Souf** et **Ammar Souf** sont actuellement enfermés dans une autre prison de haute sécurité de type G4S, la prison centrale de Megiddo.

La cour militaire va délibérer en octobre. Une enquête de l'ONG 'No Legal Frontiers' sur une période de 12 mois est arrivé à la conclusion que 100% enfants qui comparaissent devant cette cour sont condamnés. Si les 5 enfants sont effectivement condamnés, 5 vies innocentes seront ruinées sans preuves de leur culpabilité !

Nous demandons l'arrêt immédiat et sans conditions des poursuites à l'encontre des enfants et nous dénonçons les crimes commis dans les G4S, en particulier la torture sur les enfants. Il est urgent de mettre la pression sur Israël et les G4S en relayant partout cette affaire.

JUSTICIA PARA LOS CHICOS DE HARES

www.inminds.com/caged

facebook: InmindsCom

El 14 de Marzo del 2013 en lo que parece haber sido un accidente de tránsito, el auto de un colono ilegal Israelí se estrelló con la parte trasera de un camión Israelí que se había detenido para cambiar una rueda. El resultado fue de cuatro heridos. A petición de los colonos enfurecidos este hecho fue luego presentado como un ataque con piedras por parte de niños Palestinos.

El conductor del camión que había parado por una rueda pinchada cambió su testimonio luego diciendo que se había detenido porque había visto piedras en el camino, de repente un accidente que nadie había presenciado se convirtió en un ataque terrorista con 61 testigos incluida la policía!

Durante los siguientes días 50 soldados enmascarados con perros de ataque atormentaron la villa local de Hares durante el amanecer en oleadas de violencia raptando a los niños de la aldea. En total 19 niños fueron llevados a la infame prisión Israelí asegurada por G4S en Al Jalame y encerrados en confinamiento solitario por hasta dos semanas en inmundas celdas sin ventanas de 1x2 metros sin colchones. Los niños fueron torturados y amenazados con abusar sexualmente de sus hermanas para forzarlos a confesar un crimen que nunca paso.

Con la confesión forzada y los nuevos "testigos oculares" cinco de los chicos de Hares fueron imputados de 25 atentados de asesinato cada uno, aun cuando solo eran cuatro personas en el auto. La corte militar decidió que 25 piedras habían sido tiradas, cada una con el "intento de matar". Los cinco chicos- **Ali Shamlawi, Mohammed Kleib, Mohammed Mehdi Suleiman, Tamer Souf, and Ammar Souf** están encerrados en otra prisión israelí llamada Megiddo donde la empresa G4S es proveedora de seguridad para el centro de comando entero.

La corte militar vera la causa en Octubre. Un estudio sobre un periodo de doce meses conducido por la asociación no gubernamental Israelí 'No Legal Frontiers' (Sin Fronteras Legales) ha concluido que el 100% de los niños Palestinos que se enfrentan a cargos en cortes militares son condenados. Si los cinco chicos son condenados serán encerrados de 25 años a cadena perpetua, cinco jóvenes vidas arruinadas sin evidencia por un crimen que nunca tuvo lugar.

Demandamos la inmediata e incondicional liberación de todos los niños encarcelados. Responsabilizamos a la compañía G4S por ser cómplice de los crimes de Israel, en particular la tortura de niños Palestinos. Instamos a todos los ciudadanos a presionar a Israel y G4S contactando a los medios de prensa así como a los representantes de cada partido político en el gobierno.

LAS MAZMORRAS DE NIÑOS EN ISRAEL

En lo profundo de la prisión Israelí Al Jalame asegurada por G4S, tres pisos bajo tierra se localizan las celdas para niños donde niños Palestinos de inclusive 12 años son encerrados en confinamiento solitario hasta por 65 días! Su único escape es la sala de interrogatorios donde los niños son esposados de pies y manos, abusados por la policía secreta Israelí por 6 horas, hasta que confiesan usualmente haber arrojado piedras, lo que lleva una pena por sobre 20 años. *Los detalles de la prisión Al Jalame son de los testimonios de los niños como han sido reportados en el diario "The Guardian" (22/1/12) y documentados por Defence for Children International y el grupo de derechos humanos israelí B'Tselem.

65 Días en Confinamiento Solitario

"Las celdas son de 2 metros de largo por 1 de ancho, del tamaño de un colchón. El baño es un agujero en el piso. No hay ventanas, el aire es asfixiante"

La comida llega a través de una solapa cerrada en la puerta. Es la única manera de dividir el tiempo entre día y noche

La luz la mantienen encendida las 24 horas del día para inhibir el sueño

Las paredes tienen protuberancias para que los niños no se recuesten en ellas.

Detrás de una pared baja de concreto hay un hoyo en el suelo que se usa como baño, el hedor es insoportable en la celda sin ventanas.

La bandeja del desayuno es tirada a través de una solapa en la puerta a 30 cm del piso a las 4 de la mañana. Si el niño no la atrapa la comida se derrama en el piso y el niño es castigado si no la come.

El cuarto es un poco más ancho que el sucio colchón (de grosor de 5cm) que cubre el piso. Algunas celdas ni siquiera tienen eso.

6 Horas de Interrogatorios

Ellos te dicen que van a arrestar a tus padres y a traerlos aquí si no confiesas: "Nos estas obligando a traerlos aquí, date cuenta que yo tengo al estado de Israel que me respalda, tú no tienes nada"
